ABOUT

Coming to tech from a Communications and Wellness background, I bring professionalism and a diverse skillset to software development. Having experience in design allows me to easily communicate about UI/UX and understand how to work with deadlines. I have the ability to take on new ideas and learn new concepts quickly, adapt easily to new situations, and relate to many types of people. I love that software development is a field that pushes me to stretch myself mentally and encourages continued personal growth.

SKILLS

HTML	Python
CSS	Django
JavaScript	SQL
ReactJS	Git
React-Bootstrap	Github

MS Office Suite

Adobe Photoshop

Adobe InDesign

Adobe XD

TECHNICAL EXPERIENCE

Nashville Software School | Full Stack Software Developer
September 2020 - March 2021

A six-month intensive, full-time software development program focusing on project-based learning.

- Developed dynamic single-page web apps using ReactJs
- Built RESTful JSON APIs in Python with Django and SQLite
- Exposed to a simulated Agile environment
- Used Git and GitHub for version control
- Experience in fully remote collaboration

PROJECTS

Daily Baby | Full Stack Capstone Project

Daily Baby helps parents of small children bridge the gap between the desire to keep a baby book and the actual daily reality of keeping one. Currently a full-CRUD journaling app, a new texting feature is currently being developed using Twilio. When complete, this app will text the user at their preferred time and frequency to remind them to record a journal entry, then store their response.

- Tech: ReactJS, Python with Django, React-Bootstrap, Cloudinary
- Client Repo: github.com/krsteele/daily-baby-client
- Server Repo: github.com/krsteele/daily-baby-server
- Demo Video: https://youtu.be/WU1eblpRUHw

Bespōke Hub | Client-Side Capstone Project

Bespōke Hub was built as a way for a friend, who restores and sells vintage boats, to keep track of the details of each boat, manage a project's progress, and seamlessly communicate that progress to his client via a dashboard.

- Tech: ReactJS, CSS, React-Bootstrap, Grommet, JSON-Server
- Repo: github.com/krsteele/bespoke-hub
- Demo Video: https://youtu.be/L0k_OsCnEsI

Rare | Full Stack Group Project

A publishing platform and social app that allows authenticated users to create posts, associated tags, categories and comments. A full-CRUD app with a RESTful JSON API.

- Tech: ReactJS, CSS, HTML, Python, Django REST framework
- Client Repo: https://github.com/krsteele/rare-client-vicious-blizzards
- Server Repo: https://github.com/krsteele/rare-rest-api-rare-vicious-blizzards

PROJECTS CONTINUED

Nutshell | Client-Side Group Project

A CRUD social dashboard app with a task list, group chat, news, and events. Built as part of a four-person team, in a simulated Agile environment.

- Tech: JavaScript, CSS, HTML, JSON-Server
- Repo: https://github.com/krsteele/nutshell-whiskered-gnomes
- Demo Video: https://youtu.be/vy5shgVO6YU

PROFESSIONAL EXPERIENCE

Licensed Massage Therapist | Independent Contractor
September 2013 - October 2019
